GENERAL RELATIVITY AND GRAVITATION

Volume 17, 1985

General Relativity and Gravitation is a journal of studies in general relativity and related topics, published under the auspices of the International Committee on General Relativity and Gravitation.

The journal publishes research papers on general relativity and related topics; surveys and review articles on current research in general relativity and gravitation; comprehensive bibliography and biographic reports, published as continuations of the Bulletin GRG; news regarding conferences and other enterprises of interest to scientists working in this field; and book reviews.

Manuscripts and editorial correspondence, as well as books for review, should be sent to the Editor.

EDITOR

A. Held, Institute of Theoretical Physics, Room 121, Sidlerstrasse 5, CH-3012 Berne, Switzerland

HONORARY EDITOR: A. Mercier
